## Player Development/ Streaming

We are proud to be a streaming club—this means we organise our teams and training groups based on players' current abilities and developmental needs. Our aim is to provide the best environment for each child to improve and enjoy football.

The club regularly reviews player progress throughout the season and may move players between teams or training groups as needed.

If you have any questions please contact our Youth Co-ordinator [James](#).

## Communication

While we rely on our managers to share updates through team WhatsApp groups, it's important that you also follow our social media channels and check our website regularly to stay up to date with the latest news, events, and important club information.
